

Jeff Klinck

905-580-2680 | jeffrey.klinck@mail.utoronto.ca | [linkedin.com/in/jeffreyklinck/](https://www.linkedin.com/in/jeffreyklinck/)

EDUCATION

University of Toronto

Sep. 2023 – May 2027

BASc in Engineering Science

Toronto, ON

- Major in Engineering Physics and Minor in Artificial Intelligence Engineering
- Awarded the T-Holder's Academic Excellence Award (Varsity Athlete with Average > 80)

EXPERIENCE

Tokenization Research Intern

May 2026 – Aug. 2026

Transactix Financial

Toronto, ON

- Contributed to an emerging Canadian startup developing a CAD stablecoin and other tokenization primitives
- Wrote research reports that landed on federal ministers' desks, developed product prototypes, and contributed to long-term project road maps for a Canadian unified ledger

Research Fellow

Sep. 2025 – May 2026

Centre for International Governance Innovation

Toronto, ON

- Participated in the Digital Policy Hub fellowship program at the CIGI think-tank, a top-30 global institution focused on technology policy
- Wrote two policy briefs and engaged with many experts on the topics of DLT, tokenization, stablecoins, financial plumbing, payment systems, dollarization, and more

Software Engineering Intern

May 2025 – Sep. 2025

Essential & York University

Toronto, ON

- Intern for a research collaboration between York University, UofT, and Essential - a declarative blockchain protocol

Research Intern - Blockchain Group

May 2024 – Sep. 2024

University of Toronto

Toronto, ON

- Research under Prof. Andreas Veneris with support via the UofT ESROP Fellowship
- Identified 1015 historically profitable arbitrage opportunities utilizing delta-neutral portfolio hedging

EXTRACURRICULAR ACTIVITIES

Varsity Men's Lacrosse - Defence

Sep. 2023 – Present

Quantitative Strategy Lead

Aug. 2024 – Dec. 2025

St. George Capital

- Oversaw 10+ student projects with the goal of verifying and implementing our designs using **Python** and **C**

TECHNICAL SKILLS

Languages: Python, Java, C, MATLAB, Javascript, R

Blockchain Development: Smart Contract Dev. (Solidity, Foundry, Rust), On-Chain Analysis (Dune, The Graph)

Other: Quantitative Research, Policy Brief Drafting, Data Analysis & Visualization, Financial Modeling
